

(2) When adjacent non-tidal waters of the United States are present, the jurisdiction extends to the limits identified in paragraph (c) of this section.

(c) *Non-tidal waters of the United States.* The limits of jurisdiction in non-tidal waters:

(1) In the absence of adjacent wetlands, the jurisdiction extends to the ordinary high water mark, or

(2) When adjacent wetlands are present, the jurisdiction extends beyond the ordinary high water mark to the limit of the adjacent wetlands.

(3) When the water of the United States consists only of wetlands the jurisdiction extends to the limit of the wetland.

#### § 328.5 Changes in limits of waters of the United States.

Permanent changes of the shoreline configuration result in similar alterations of the boundaries of waters of the United States. Gradual changes which are due to natural causes and are perceptible only over some period of time constitute changes in the bed of a waterway which also change the boundaries of the waters of the United States. For example, changing sea levels or subsidence of land may cause some areas to become waters of the United States while siltation or a change in drainage may remove an area from waters of the United States. Man-made changes may affect the limits of waters of the United States; however, permanent changes should not be presumed until the particular circumstances have been examined and verified by the district engineer. Verification of changes to the lateral limits of jurisdiction may be obtained from the district engineer.

### PART 329—DEFINITION OF NAVIGABLE WATERS OF THE UNITED STATES

Sec.

329.1 Purpose.

329.2 Applicability.

329.3 General policies.

329.4 General definition.

329.5 General scope of determination.

329.6 Interstate or foreign commerce.

329.7 Intrastate or interstate nature of waterway.

329.8 Improved or natural conditions of the waterbody.

329.9 Time at which commerce exists or determination is made.

329.10 Existence of obstructions.

329.11 Geographic and jurisdictional limits of rivers and lakes.

329.12 Geographic and jurisdictional limits of oceanic and tidal waters.

329.13 Geographic limits: Shifting boundaries.

329.14 Determination of navigability.

329.15 Inquiries regarding determinations.

329.16 Use and maintenance of lists of determinations.

AUTHORITY: 33 U.S.C. 401 *et seq.*

SOURCE: 51 FR 41251, Nov. 13, 1986, unless otherwise noted.

#### § 329.1 Purpose.

This regulation defines the term “navigable waters of the United States” as it is used to define authorities of the Corps of Engineers. It also prescribes the policy, practice and procedure to be used in determining the extent of the jurisdiction of the Corps of Engineers and in answering inquiries concerning “navigable waters of the United States.” This definition does not apply to authorities under the Clean Water Act which definitions are described under 33 CFR parts 323 and 328.

#### § 329.2 Applicability.

This regulation is applicable to all Corps of Engineers districts and divisions having civil works responsibilities.

#### § 329.3 General policies.

Precise definitions of “navigable waters of the United States” or “navigability” are ultimately dependent on judicial interpretation and cannot be made conclusively by administrative agencies. However, the policies and criteria contained in this regulation are in close conformance with the tests used by Federal courts and determinations made under this regulation are considered binding in regard to the activities of the Corps of Engineers.

#### § 329.4 General definition.

Navigable waters of the United States are those waters that are subject to the ebb and flow of the tide and/or are presently used, or have been
